Project workflow

CERTIFICATEN

Full-stack Development

2022

HBO niveau - Diploma behaald

Web Development

2022

HBO niveau - Diploma behaald

PROFIEL

I'm always very excited to start new things, and since last year I have focused on learning Coding, Coding is not just a job but for me Coding is a perspective and a way of thinking and how to solve "Solving problems". and I seem to find myself here. I really enjoy learning and always up to date, and keeping up with the times. Working in a team or independently is not a problem for me, because each one has its own pleasure. There is no surrender, because there is always a way if there is a will -Farid Attamimi-

WERKERVERING

Front-End developer

Winc Academy, Amsterdam
